

Dear Friends:

This note is by way of invitation to participate in a Group Meditation Action. This particular action will focus on the United Nations Security Council.

“The United Nations Security Council (UNSC) is one of the six principal organs of the United Nations and is charged with the maintenance of international peace and security. Its powers include the establishment of peacekeeping operations, the establishment of international, and the authorization of military action through Security Council resolutions; it is the only UN body with the authority to issue binding resolutions to member states.” *Wikipedia*

The Security Council consists of fifteen members. Five of these members serve as permanent. They are Russia, The United Kingdom France, China and the United States. **Any one of these permanent members can veto any substantive Security Council resolution, including those on the admission of new member states or candidates for Secretary-General.**

The existence of the veto power within the Security Council has greatly hampered the effectiveness of the United Nations in meeting the Intentions which brought it into manifestation. In the efforts Humanity has made over the centuries to bring the Cosmic Principles of Equality and Freedom to all peoples of the planet, regardless of the of the cultural mores, practices, laws, and traditions of where they happened to be born, retrogressive roadblocks such as this veto power have more often than not been encountered.

An original section in the Constitution of the United States is a remarkable, recent example of this kind of retrogressive interference. In order to be ratified into the Law of the land, the U.S. Constitution had to include **Article One Section 9**, *“The Migration or importation of such Persons as any of the States now existing shall think proper to admit, shall not be prohibited by the Congress prior to the Year one thousand eight hundred and eight, but a Tax or duty may be imposed on such Importation, not exceeding ten dollars for each Person.”*

This clause “legalized” slavery. It took around 80 years and a horrendous civil war for this proviso to be amended out of the Constitution. So, the existence of this retrogressive veto power in the UN Charter is nothing new. The UN is approaching 69 years now. To this day, all of the efforts to eliminate or moderate this retrogressive veto have been unsuccessful. **It is the objective of this Group Meditation Action to employ the manifesting power of Synthesis into this effort. In this we will be working from Principle into a brand new form.**

We have all noticed that “everything” is speeding up. This speeding up can be seen from one angle as the result of the presence on our Planet of the Avatar of Synthesis “who, acting under the direction of a greater Cosmic Life, synthesizes the energies into a lower correspondence of a Cosmic energy as yet of too high and subtle a frequency for us to reach.” This energy is a synthesis of the Rays 1,2 and 7. It resembles these Rays but “is not like any one or any combination of them.” *Ashramic Projections P. 173* We must constantly be aware that these three Ray energies are sub Rays of the Cosmic Second Ray of Divine Love Wisdom. All of this “action” is therefore conditioned and directed by the cosmic Ray of Love Wisdom.

“The major characteristic of this new energy is its dynamic, precipitating faculty. It is the precipitating agent of the Divine Plan for humanity in specific circumstances and situations, in specific happenings. The disciple will use the energy by focusing it into those situations and circumstances which should be the vehicle for the manifestation of the Plan, but are not necessarily so at that given time. By focusing this energy into this specific situation or this circumstance even though that happening appears to be in opposition to the Plan, the energy itself precipitates the Divine Plan into manifestation via or through that specific happening.” *Ashramic Projections P. 186*

Invoking the Energy of Synthesis:

Alignment

Focus in the Cave, Take a deep breath align the vehicles and dedicate them to the service of the Plan.

Link the three heart centers into a unified field of golden light. It is essential that this work be carried forward from and through a heart focused mind.

Bring the three part Soul into the unified coherent field of Light within Heart Field.

Link the heart fields of the group into a unified whole.

Link with the Ashram of Synthesis.

See the three Masters, M, D.K. and R, standing in a field of Blue Fire. Name and link with each one.

Link with the Higher Triangle of the Christ, the Avatar of Synthesis and the Planetary Logos. For the purpose of bringing the actions of the Security Council into right relation with the Divine Plan, we Invoke and stand receptive to the energy of Synthesis.

Reception

Stand in the Silence, 2-3 minutes receptive to the Inflow of the Synthesis Energy “The Synthesis Energy will be released in exact proportion to the *group* power potential in service” *Ashramic Projections P. 175*

Distribution

Focused on the threshold of the Ashram of Synthesis in the Center of All Love, turn the attention toward the U.N.

Visualize the room in the United Nations Building in which the Security Council meets.

Consciously direct the focused Synthesis energy into this room. See the energy as a pillar of pure coherent Light piercing the ceiling of the room and creating a huge Torus of the synthesis energy that fills the room sweeping all up into its central synthesizing vortex.

Hold this vision for up to 3 minutes.

Focus again on threshold of the Ashram and see the synthesizing torus of Light maintaining its presence and function within the room.

Once one the Synthesis energy torus has been established it can be reenergize at any time simply by bringing the vision of the torus in the Security Council chamber into the minds eye and refreshing the link

between the Higher Triangle of the Christ, the Avatar of Synthesis and the Planetary Logos and the torus field in the chamber..

“Conflict in the extreme, followed by quick evolutionary change[relatively speaking] will manifest wherever the Synthesis energy is applied.” *Ashramic Projections* P. 174

This Meditation Action can be carried forward by any heart focused disciple. It can be done at anytime by any worker. It is helpful that for power, a rhythm of regeneration be established. All such work proceeds from the heart and is group work. The group presence protects both the work and the worker from misapplication and overstimulation.

If you are interested in helping with the effort, please do. I would be happy to respond to any questions or queries.

Lots of love
-tom
