

Dear Friends:

This note is by way of invitation to participate in a Group Meditation Action. This particular action will focus on three of the major stock exchanges on the planet. We have selected The New York Stock Exchange, The Tokyo Stock Exchange, and the London Stock Exchange. (Note that each of these stock exchanges is located in one of the planetary centers.)

It is the objective of this Group Meditation Action to employ the manifesting power of Synthesis in this effort. In this we will be working from Principle into a brand new form.

We have all noticed that “everything” is speeding up. This speeding up can be seen from one angle as the result of the presence on our Planet of the Avatars of Synthesis and Equilibrium. The Avatar of Synthesis, “who, acting under the direction of a greater Cosmic Life, synthesizes the energies into a lower correspondence of a Cosmic energy as yet of too high and subtle a frequency for us to reach.” This energy is a synthesis of the Rays 1,2 and 7. It resembles these Rays but “is not like any one or any combination of them.” *Ashramic Projections* P. 173 We must constantly be aware that these three Ray energies are sub Rays of the Cosmic Second Ray of Divine Love Wisdom. All of this “action” is therefore conditioned and directed by the cosmic Ray of Love Wisdom.

“The major characteristic of this new energy is its dynamic, precipitating faculty. It is the precipitating agent of the Divine Plan for humanity in specific circumstances and situations, in specific happenings. The disciple will use the energy by focusing it into those situations and circumstances which should be the vehicle for the manifestation of the Plan, but are not necessarily so at that given time. By focusing this energy into this specific situation or this circumstance even though that happening appears to be in opposition to the Plan, the energy itself precipitates the Divine Plan into manifestation via or through that specific happening.” *Ashramic Projections* P. 186

Invoking the Energy of Synthesis:

Alignment

Focus in the Cave, Take a deep breath align the vehicles and dedicate them to the service of the Plan.

Link the three heart centers into a unified field of golden light. It is essential that this work be carried forward from and through a heart

focused mind, and for help in this we have the Presence of the Avatar of Equilibrium

Bring the three part Soul into the unified coherent field of Light within Heart Field.

Link the heart fields of the group into a unified whole.

Link with the Ashram of Synthesis.

See the three Masters, M, D.K. and R, standing in a field of Blue Fire. Name and link with each one.

Link with the Higher Triangle of the Christ, the Avatar of Synthesis and the Planetary Logos.

For the purpose of bringing the guiding purpose, the intentions, and actions of these three centers, through which the majority of planetary energy in the form of money and its derivatives move, into right relation with the Divine Plan, we Invoke and stand receptive to the energy of Synthesis.

Reception

Stand in the Silence, 2-3 minutes receptive to the Inflow of the Synthesis Energy “The Synthesis Energy will be released in exact proportion to the *group* power potential in service” *Ashramic Projections* P. 175

Distribution

Focused on the threshold of the Ashram of Synthesis in the Center of All Love, turn the attention toward the U.N.

Visualize the provided graphic of these three stock exchanges.

Consciously direct the focused Synthesis energy into each of the three exchange's image. In each case, see the energy as a pillar of pure coherent Light piercing the center of the building and creating a huge Torus of the synthesis energy that fills the entire building and surrounding area sweeping all up into its central synthesizing vortex.

Hold this vision for up to 3 minutes.

Focus again on threshold of the Ashram and see the synthesizing courses of Light maintaining their presence and function within the the areas.

Once one the Synthesis energy torus has been established it can be reenergize at any time simply by bringing the vision of the torus in the Security Council chamber into the minds eye and refreshing the link between the Higher Triangle of the Christ, the Avatar of Synthesis and the Planetary Logos and the torus field in the chamber..

The accompanying graphic illustrates the target areas.

“Conflict in the extreme, followed by quick evolutionary change[relatively speaking] will manifest wherever the Synthesis energy is applied.” *Ashramic Projections P. 174*

This Meditation Action can be carried forward by any heart focused disciple. It can be done at anytime by any worker. It is helpful that for power, a rhythm of regeneration be established. All such work proceeds from the heart and is group work. The group presence protects both the work and the worker from misapplication and overstimulation.

If you are interested in helping with the effort, please do. I would be happy to respond to any questions or queries.

Lots of love
-tom
