It is intensity of purpose which will change you from the plodding, fairly satisfactory aspirant into the disciple whose heart and mind are aflame. DINA 1 P. 538

August 25, through September 24, 2014

The cosmic Breath of the Mother of the World is all-pervading. Verily, all is imbued with it. From infinitesimal grains of dust to immeasurable magnitudes, life moves and breathes by this Breath. How then not to cognize the power which moves the Universe! How not to ponder upon the essence of Being! Fathom the rhythm of cosmic energy and understand the rhythm of evolution. The essence of evolution is unalterable and is measured by the manifestation of Infinity. *Infinity I*, 10.

## Evolution Is Unavoidable

Every age has its “dinosaurs.” Why should ours be any different? Well, it’s not. It is quite obvious that the present dominant vertebrates, dinosaurs, or “terrible lizards”, are a small and dwindling group of human bipeds. In 2008, there were roughly 8.6 million left on the planet **Wikipedia** (0.123% of the world population). These individuals are presently classified as High Net Worth Individuals (assets of \$1-5 million), Very High Net Worth Individuals (assets of \$5-50 million), and Ultra High Net Worth Individuals (assets of more than \$50,000,000). Of these approximately 187,380 (0.00268% of the world population) (2012 data) were Very and Ultra High Net Worth Individuals of whom 2,160, (0.00003% of the world’s population) were billionaires.

This tiny grouping of humans evolved from various ancient species known as Kings, Queens, Princes, Tzars, Sultans, Emperors, Counts, Duchesses, and let us not forget, Popes and Cardinals. Within the last 200 or so years the species of kings etcetera has become practically extinct. However, their progeny are still the owners and controllers of vast wealth, and many have come to be classified in new categories such as CEOs, Moguls, Magnates, and Oligarchs. A number of these are so called “self made” indicating that their wealth/power was not inherited, but

gathered through the usual predator methodologies.

According to data, dinosaurs, until the (K-Pg) extinction event, “were the dominant terrestrial vertebrates for 135 million years.” **Wikipedia**. How long the current “terrible lizards” have been the dominant vertebrates is unknown. However, it is obvious that Brothers of this grouping, for they are part of the One Humanity, have been feeding at the top of the human “food chain” for as long as we have written data.

The *Akashic Records* would undoubtedly be able to tell us just how long. But for now we can only speculate based upon the recorded history we can access. *(For a detailed account of what the Akashic Records contain and what it takes to access them please see The Light Of The Soul, A Paraphrase of The Yoga Sutras Of Pantanjali P. 276)*

Species used to become “dominant” because of the kinds of dense physical equipment they had, mainly lots of muscles and big teeth. Some long time after the (K-Pg) extinction event, Humans became dominant. This development was partly a result of the evolution of the prehensile hand and opposable thumbs.

However, some unknown millions of years after the K-Pg extinction event, there was an additional major evolutionary event that was a significant factor in the evolution of humanity into

this position of dominance. Unlike the K-Pg extinction event, this event is not, as yet, a recognized part of the geological record, and lacks an appropriate geological name. The event is noted at length in various ancient texts and in a number of more recent so called esoteric writings including the works of Alice A. Bailey. I think of this event as the (V-MI) Venus Mind Intervention event.

### ***The First Ascension***

The ascension of human beings to dominance on the planet occurred after, and as a direct result of, the V-MI which involved a not so dense, but far more powerful, intervention than the one that impacted as the generator of the K-Pg extinction event.

According to the Lore, the V-MI impact, “The advent of the Lords of the Flame, the electrical storm which ushered in the period of man....” involved the “implanting” of the “spark of mind” by highly evolved Beings from Venus into the primitive consciousness of what then were human beings. *A Treatise On Cosmic Fire P. 425* (When science liberates itself from fixation on the dense physical dimension of Cosmos, it will eventually let us know just what transpired during this significant occurrence. In the meantime there are the Akashic Records.) At any rate it was as a result of this event that human bipeds became “intelligent”, or at least clever enough to figure out how to create “tools.”

### ***Free Will***

By the way, it is important to realize that Free Will was a vital and included part of the implant package that came along with the spark of mind. The mind and free will

always and only co-exist. Otherwise, what would be the point?

**Then**, most of the tools we made were designed to help us avoid becoming food for what remained of the “dominant” predator species, creatures like saber tooth tigers, lions, leopards, wolves, etcetera, and getting something to eat for ourselves. Gradually, this unavoidable Principle of “mind over matter” bit evolved humans into the “dominant” species role. The hunters became the hunted. Things like lion teeth necklaces and leopard skin coats became fashionable wear for the developing king class. Some would say the planet was better off under the dinosaurs because they could kill only one thing at a time, and did not pollute the place with all kinds of chemicals and brown gas.

### ***The Lingering Predator Instinct***

**Now**, when the dominant species is human and we all have more or less the same dense physical equipment, forces other than physical are at play. However, the predator instinct did not evolve or perhaps I should say “extinct” out of us. It just shifted from getting dinosaur food to getting power and wealth which is the modern equivalent of predator food or sustenance.

As we are well aware, the predatory drive, which has warped into a supposed, “innate” part of human consciousness and is now dressed up as competition is still quite active throughout the human species. However, the present version of the “Terrible Lizards” the UHNWI (Ultra High Net Worth Individuals) along with their Very HNWI and just HNWI, still primarily driven by these pre-human urges, are by far, as we have

documented above, the best hunter gatherers of this food.

The geological record indicates that it was the K-Pg extinction event, the impact of Earth by an asteroid or comet some 6 miles in diameter, that led to the eventual mass extinction of just about all higher life forms including the terrible lizards.

We have so far avoided the modern day equivalent of the K-Pg extinction event, an atomic bomb war. However, there is another Cosmic Event impacting the planet. This event which is an evolutionary result of the (V-MI) event which triggered the current phase of Planetary evolution is occurring over time in a more orderly and probably much less destructive way. At any rate, it is necessary for us to understand that evolution and extinction or large scale reconstruction always and only co-exist.

In relation to the time spans during which the evolution of various early life forms on the planet occurred, the ongoing impacting and resulting changes of the (V-MI) event, while not so obviously dramatic, and seemingly very slow, have actually been very rapid. This speed up is documentable by comparing the time spans of evolutionary development in the written historical record with the geological time periods. For an example of this speed up, see Buckminster Fuller's *Nine Chains To The Moon Appendix 1*.

Evolution is the process of Consciousness manifesting through forms. In the early stages our planet's evolution concerned the development of

forms that could adequately "house" the various frequencies of the then impacting consciousness. The evolution of the animal Kingdom finally produced a form that was capable of withstanding the frequency of MIND. Since then, evolution for humanity has been about consciousness rather than form which probably accounts for the obvious speed up.

***Evolution is the process of Consciousness manifesting through forms.***

Although this event lacks the immediate drama, and spectacle, of the impact of a six-mile diameter meteorite, it was equally destructive of animal forms that were not able to accommodate the higher frequencies of Mind, and it is a continuation or unfolding of the V-MI event. This causal occurrence is perhaps in the middle phase of its unfolding effect. Its impact and manifestation has already generated enormous reconstructions within humans and created huge changes in our civilizations and cultures.

Evolution is occurring primarily on emotional and mental levels. Other than igniting dormant cells in the dense physical instrument, evolutionary manifestations do not deal with the dense form. Evolutionary manifestations appear through human institutions and cultures only as the humans are able to comprehend and implement the Plan for this Planet.

These developments can only occur through the free will actions of human beings. True, things on the dense physical plane look awful. Poverty, starvation, disease, war, are everywhere. These are all manifestations of the yet to

be evolved aspects of ancient human consciousness which is still entrapped in the Predator or Competition delusion of Reality.

### ***The Second Ascension***

In spite of the bleak pictures which fill our media there is ample evidence of a rapidly approaching breakthrough of the evolving consciousness of group awareness and the realization of the basic unity and multidimensional nature of Cosmos. In fact, the global awareness of these conditions and the growing compassion of the human heart to ameliorate and eliminate the causes for these absurdities are part of the driving force of the V-MI.

As it unfolds this evolutionary event will continue to utterly eradicate, not the individual people who are presently the UHNWI, but the entire base of thoughtforms and assumptions regarding reality that sustains that unsustainable form of life on this planet. The UHNWI, the VHNWY will, perhaps slowly to us, but very rapidly in terms of evolution, join the fossilized ranks of the dinosaurs and other predatory species.

This is evolution. It is unavoidable. Although the present members of these species are resisting with everything they can think of, they may as well stand on a ledge somewhere and tell the sun not to rise. I had a vision of a giant Tyrannosaurus standing on a mountain ledge and screaming about how it could not find anything to eat.

In case you have not guessed, or as you may have anticipated, what this impact is, it is the unfolding appearance of group consciousness. Although somewhat beyond the understanding scope of orthodox science, this evolutionary process is being accompanied now by the growing presence in our Solar System of a different Cosmic Ray Energy. For lack of the ability to say much that is meaningful about this incoming Energy wave in any but highly metaphORIZED images, we call it the Seventh Ray of Ceremonial Order and Magic.

B.T.W. Do not let that word “magic” fool or prejudice you. As we have moved along, that is, got smarter, we have realized that magic is a word we use when we do not as yet understand the Cosmic Physics that are generating what we call miracles. And, as a friend and co-worker has noted, “as we come more and more into alignment with the physics of Cosmos, we will see that we are generating “miracles”!”
